

# KAY MEDIA AFRICA

---

Kay Media Africa is a modern African multimedia production studio and consultancy specializing in animation, audio, video and interactive content. While we are based in Harare Zimbabwe, we take advantage of the possibilities provided by technology to serve clients across the globe.

Utilising the breadth of African ideas, skill and identity we help story tellers, marketers and entertainers produce audio-visual content that engages, resonates with and inspires their target audiences. We serve Ad Agencies, Brands, NGOs, Corporates, Film Studios, TV Networks, Digital Media Platforms and all organisations using multimedia content to connect with audiences through new and traditional media. We believe "Less is more" so we not only respect the process but we streamline it to work efficiently & deliver value to our clients. As a full service multimedia studio we provide an end to end solution that offers convenience, consistency and cost savings by eliminating middleman mark up costs.
